NILO

**NILO
FLOOR LAMP**

A SCULPTURAL AND ADAPTIVE LIGHTING PIECE

The Nilo Floor Lamp is a sophisticated and versatile lighting piece, designed to blend elegance with functionality. Crafted from brass, it features a slender, elongated form that exudes refinement and grace. What sets this lamp apart is its flexible central section, made from adaptable brass, allowing it to be shaped and adjusted to suit different lighting needs and aesthetic preferences.

The seamless fusion of structure and adaptability makes the Nilo Floor Lamp a striking yet practical addition to any interior. Whether positioned to cast focused light in a reading nook or gently illuminating a living space, it offers both flexibility and style. The warm tones of the brass add a touch of richness, while the minimalist silhouette ensures effortless integration into a variety of settings.

With its sculptural presence and adjustable nature, the Nilo Floor Lamp becomes more than just a lighting fixture—it is a statement piece that enhances the atmosphere of refined, well-curated interiors.

About the Designer: Vasco Pintado

Vasco Pintado is recognized for his exceptional ability to blend traditional craftsmanship with contemporary elegance. His work transcends mere functionality, transforming lighting and furniture into sculptural masterpieces. Drawing inspiration from the interplay between organic materials and refined design, Pintado creates pieces that elevate any space, offering a perfect balance of sophistication and artistic expression. His dedication to quality and innovation is evident in every creation, making each piece a unique statement.
