TABLE LAMP

Takata Table Lamp – The Sculpture of Light

The Takata Table Lamp, designed by renowned artist Antonia Pintado, transcends the traditional function of lighting to become a true sculptural masterpiece. Cast in bronze, this table lamp features a serene and enigmatic face, evoking a sense of introspection and mysticism.

Crowned with exotic golden feathers that rise with elegance and sophistication, the piece creates a unique interplay of light and shadow when illuminated. The contrast between the solidity of bronze and the fluidity of the feathers gives the artwork a striking yet ethereal presence, making it a statement piece in any refined setting.

A tribute to the fusion of art and design, the Takata Table Lamp is more than just a functional object; it is an expression of creativity and luxury, perfect for collectors and admirers of the sublime.

About the Designer: Antónia Pintado

The brilliant mind behind Vicente, Antónia Pintado, envisioned a design that flawlessly harmonizes marble's ethereal beauty with the classical charm of hand-cast bronze. The result is a table lamp that transcends mere illumination, becoming a sculptural masterpiece that gracefully melds traditional allure with contemporary sophistication.
